Thomas Young

President
Young Office

About: Young Office...

We aren't your typical furniture company, we are different!

Our passion is helping *you* create the perfect environment. From our beginning in the early 1950's to now, we bring people together to inspire creativity and collaboration. It is after all, about *you* and your space. We help bring your dreams and ideas to life whether is a full gut and start over job or engaging with your people to solve ergonomic issues, we bring a tremendous amount of resources and experience to help *you* through the process and actually make it fun.

Today the business climate has changed dramatically. A new age has dawned with the proliferation of smart phones, tablets making work mobile. These innovations ushered in new ways to work, collaboration and sharing information at light speed changing the work environment forever. Incorporating technology, and the impact it has on your space is more important than ever. Your space is only limited by your imagination, let us take this journey with *you*.

"Young Office has a longstanding relationship with TPM. We use multiple services offered by TPM and appreciate the great service we receive every day. TPM is a great well diversified company we look forward to continuing to partner with in the future."
